222 Escuela Ave #168
Mountain View, CA 94040

My name's Alex Jansen. I'm 26 and I was born in the Bay Area. I've pursued technology my whole life. Starting with playing with digital cameras in middle school then robotics in high school, and now product development professionally. I love building tech based magical solutions for all people. I've also pursued machine learning and robotics as a personal hobby, and I love carefully building massive apps used by many people and dealing with the all sorts of issues which arise from deploying large systems. Outside of work I like to drive my Miata, play *Magic: The Gathering*, and practice skateboarding.

Work Experience

IT and Fulfillment and Product Management - **iFixit** (Feb 2010 - Oct 2012)
Founder and Entrepreneurship - **Open Robotics** (Aug 2013 - April 2014)
Fullstack Product Engineer - **Showvine** (May 2014 - Aug 2014)
Web Engineer - **Plangrid** (Dec 2014 - Aug 2016)
Fullstack Product Engineer L4 - **Uber** (Sep 2016 - Current)

Certificates

Eagle Scout - **Boy Scouts** (2009)
High School Graduation (Emphasis on STEM) - **Monte Vista** (2009)
Computer Science Credits - **Cuesta College** (2011)
Machine Learning by Andrew Ng - **Coursera** (2012)
